Review We stayed here for more than 10 months. This 1BHK furnished is really fantastic. The owner is very nice and helpful in case if you need anything. Recently, the flats have been completely renovated with all home appliances & furniture. All the home appliances provided to us were super premium, like Sony 55inch OLED, LG washing machine with dryer, Daikin AC, sofa and king bed.. The watchman and caretaker is always there in case you need something. The cleanliness of the entire premises is really top notch. The rooms are spacious enough to couples. The interior design is really awesome. I'm sure a lot of thought went into designing the rooms. The rooftop garden with lighting arrangement on terrace is really excellent. If anyone is looking for a comfortable living, then one can definitely consider this flat. Thank you, and keep up the good work 🍷

Review This is an ideal home for anybody who moves to Bangalore. Its in the city yet gives you a very peaceful vibe. The house is fully furnished and you can just move in and feel home. The kitchen is fully functional and the house has power backup too. Its pretty calm and refreshing to walk around the balcony area in the evenings. The terrace is my favourite place and is loaded with plants. Karthik definitely has great taste and is very approachable when you face any kind of difficulty.
